Professional Summary:

Data Analyst skilled in SQL, Python, Excel, and Power BI with experience in data cleaning, exploratory analysis, statistical modeling, and dashboard development. Skilled in transforming complex datasets into actionable insights through visualization, KPI reporting, and business intelligence solutions.

Skills:

- **Programming & Data Querying:** SQL (Joins, CTEs, Window Functions, Subqueries), Python (Pandas, NumPy, Matplotlib, Seaborn)
- **Analytics & Statistics:** EDA, Data Cleaning, Data Transformation, KPI Reporting, Descriptive Statistics, Hypothesis Testing, Regression Analysis
- **Data Visualization & BI:** Power BI, Tableau, Microsoft Excel, Power Query, Dashboard Development, Business Intelligence
- **Business & Communication Skills:** Data Storytelling, Dashboard Reporting, Stakeholder Communication, Insight Presentation, Problem Solving

Experience:

Data Analyst Intern | SoulVibeTech

Remote | July 2025 – September 2025

- Developed SQL queries, Excel reports, and Power BI dashboards while performing data cleaning, transformation, and KPI analysis to generate actionable business insights.

Data Analytics Job Simulation | Quantum (Forage)

Virtual Experience | July 2025

- Analyzed transaction data using uplift testing to identify customer trends and commercial insights.

Education:

University of the Punjab

Bachelor of Science in Information Technology

2023 – Present | Expected Graduation: 2027

Gujranwala, Pakistan

Projects:

Supply Chain Optimization & Profitability Analysis | Python, SQL, Power BI, Excel

- Analyzed **66K+ orders** to identify profitability, customer, and supply chain trends.
- Built a Power BI dashboard tracking **\$36.78M revenue** and **10.78% profit margin** with business insights.

Airline Delay & Performance Analytics | Python, SQL, Power BI

- Analyzed **5M+ flight records** to evaluate delays, airline performance, and route efficiency.
- Developed a Power BI dashboard tracking KPIs, delay patterns, and operational bottlenecks.

Quasi A/B Testing for Digital Payment Fraud Analysis | Python, Tableau, Statistics

- Performed quasi-experimental analysis on **1M+ payment transactions** to assess fraud risk across digital payment methods.
- Applied hypothesis testing and EDA to uncover transaction risk factors.

Certifications:

Google Advanced Data Analytics Professional Certificate — Coursera | 2025
